

## News In Brief

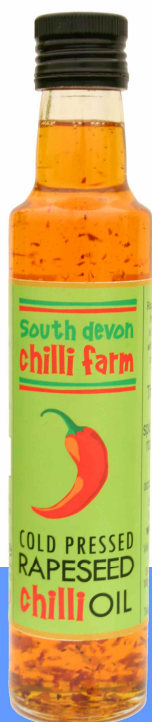

- New Product - Rapeseed Chilli Oil.
- Chilli Drinking Chocolate - It's back!

- Dried Chilli Range - Now on 'clip-strips'
- New 'Extreme' range - Even Hotter!
- New Website - Retailers' listings.

## New - Rapeseed Chilli Oil

We have been working with our friends at The Seed Co, Dorset, who produced this wonderful full-flavoured cold pressed Rapeseed Oil. The oil has a 'nutty' flavour and naturally occurring Omega 3,6 and 9 and Vitamin E. We have been using this oil on just about everything! It is perfect for drizzling, dressings, roasting and frying. We steep the oil with our chillies for two to three weeks, filter, and then add flakes of a medium-heat chilli. The heat from the chillies takes a little time to get around the flavour of the oil (about two minutes), but it does get there! The oil is sold in a 250ml bottle fitted with an oil pourer opening.

See it in our online shop here.

## 'Extreme' Range

Using the mighty Bhut Jolokia chilli, we have launched the 'Extreme' range - for those that like it REALLY HOT!

## New Web Site

We have just upgraded our website again. Retailers can now register; 'claim' their entry in the list of stockist and add more details and images. Please let us know if you stock our products and don't appear in the online list here.

## Dried Chilli - now on clip strips

We have added many more dried chillies to our range and can now offer them smartly packed with bright header cards and on 'clip-strips' that can be clipped onto shelves to hang vertically.

## Chilli Drinking Chocolate - It's back!

We have now invested in a new chocolate flaking machine, so our popular Chilli Drinking Chocolate is available again. Just add 3 or 4 tablespoons of flakes to hot milk and stir to melt. Available in 250g consumer packs and 2kg catering packs.

Chilli Chocolate - The Drink That Warms You Twice!
